PARKLAND HAPPENINGS

Parkland College Fall Open

Nov 7, Fri | 12:30pm-4:00pm

High school students, counselors, and parents of college-bound students can tour the campus, get questions answered from admissions, financial, and counseling representatives, and learn about Parkland's affordable programs and degrees.

World of Science: Winter of 2013-2014

Nov 7, Fri | 7:00pm-8:00pm

Remember the frigid cold of last January and February? Local climatologist Molly Woloszyn will let residents know if they should expect more of the same this winter.

"Around the World in 80 Days" at Theatre

Nov 14, Fri | 7:30pm-Nov 23, Sun | 3:00pm Parkland Theatre presents Around the World in 80 Days by Laura Eason Nov. 14-23.

APPLY NOW!

NEWS & EVENTS

- Dual Eclipses in October; Telescope Viewing Available
- Parkland named to Military Friendly Schools list
- Transferring? Four-year Colleges Visit Campus Soon!

EVENTS

WORLD OF SCIENCE: WINTER OF 2013-14

Fri, Nov 07, 2014 starting at 7:00 PM - 8:00 PM Science talk, featured show form climate double-header at planetarium

The William M. Staerkel Planetarium at Parkland College welcomes Woloszyn to the dome November 7 at 7 p.m. for the next "World of Science" lecture, "The Winter of 2013-2014." Admission is \$1 at the door, with "Friends of the Staerkel Planetarium" admitted free of charge.

Woloszyn is an extension climatologist with the Midwestern Regional Climate Center and the Illinois-Indiana Sea Grant (University of Illinois). She will take a look back at the vicious winter of this past year and discuss how it ranked in a historical/climatological context.

She will also discuss what happened to make it such an anomalously cold winter for central Illinois, as well as if there is any indication whether these types of winters will become more or less frequent in the future. Based on recent seasonal projections, she will also look forward to what we may expect for the winter of 2014-2015.

A Champaign native, Woloszyn has served as the extension climatologist for both University of Illinois programs for the last three years. She is responsible for communicating climate-related information to various audiences (e.g. local governments, educators, students, public) throughout the Midwest, mainly through presentations, workshops, social media, and other outreach avenues. Her educational background includes a Master's degree in Atmospheric Science from Colorado State University and a bachelor's degree in Meteorology from Northern Illinois University.

Following the presentation, the planetarium will show its fall fulldome feature, Dynamic Earth. Find a schedule of fall programs at www.parkland.edu/planetarium or call 217/351-2446. Tickets range from \$4 to \$5, sold at the door.

HONORS PROGRAM

EARN THE NEW 3R'S > RECOGNITION • RESPECT • REPUTATION

Our Honors Program offers unique educational opportunities and scholarships each semester to students motivated to challenge themselves academically; find an outlet for a special academic interest or talent; or simply continue their commitment to scholastic achievement.

RECOGNITION

- · Educational Scholarships
- Annual Honors Program Awards
- Leadership roles in the Parkland Scholars Student Organization
- · Recognition on your transcript and diploma for high achievement
- Transfer directly into Honors Programs at other colleges and universities

RESPECT

- Access to National Collegiate Honors Council scholarships/activities
- Honors Program members may also join Phi Theta Kappa, the honor society of two-year colleges

REPUTATION

Advanced preparation for college transfer and post-graduate work

Students with a 3.0 GPA are eligible to join the Honors Program. There is no fee required to join the Honors Program.

Honors students will use SPARK (Parkland's online institutional repository) to create, preserve and showcase their Honors Portfolios. The Honors Portfolios will contain A with Honors projects, essays or journals referencing Honors Seminars students have attended, overviews and outcomes of service learning and Honors projects they have completed as well as recognition and accomplishments within the college and community. Projects and activities that students wish to enter into their portfolios by the end of a semester must be approved by the Honors Director; a Portfolio Project Form will be available for student submission. The deadline for Portfolio Project Proposals will be one week after semester midterm.

Portfolios of continuing students will be reviewed at the end of the spring semester. Those who have completed at least two satisfactory portfolio projects, will be eligible for a \$200 scholarship (if funds are available).

In the semester that they will graduate, students will participate in an Honors Symposium where they will highlight their honors achievements. To Graduate from the Honors Program, students must have a 3.5 GPA, must have three acceptable portfolio projects (two must be A with Honors, one must be a service learning project), must participate in the Honors Program Symposium, and must participate in the Honors Convocation. Those graduates whose work is of a high academic standard will receive Honors Scholarships; the amount of these will be determined by the number of graduates and availability of funds, but it is hoped that students could receive up to \$1000 each.

The Parkland Scholars Student Organization will be available to all students in the Honors Program, members of Phi Theta Kappa, or on the Parkland Dean's List. The club will help facilitate a community of honors students, allow students to participate in service learning, and sponsor college wide events.

JOIN NOW!

- Download, complete the Honors Program Application
- Email application to mjones@parkland.edu or mail to Parkland College, Honors Program,

PROGRAM & MAJORS

GRADUATE FROM PARKLAND AND THEN TRANSFER TO A 4-YEAR COLLEGE.

Taking Parkland College classes first and transferring the credits to a 4-year school is a pretty smart move. More and more high school grads are completing their "gen eds" and basic courses in their major at Parkland first, saving a LOT of money. Click to learn more about Transfer information and General Education Courses (gen eds).

FIRST TIME STUDENT APPLICATION PROCESS

If you are not a first time student, CLICK HERE.

Feel free to call us at 217-351-2482 for help.

STEP 1: SUBMIT AN APPLICATION

ONLINE APPLICATION

By mail or fax - Please type or print this application form and mail it to Admissions and Records, Parkland College, 2400 West Bradley Avenue, Champaign, IL 61821-1899 or fax it to 217/353-2640.

OR

In person - Stop by the Office of Admissions and Records (U214; 217/351-2208) to complete an application form.

Note: If you are planning on applying for financial aid, do it now at www.fafsa.ed.gov. Parkland College's school code is 007118. Check for general scholarships at www.fastweb.com and our Parkland Scholarships. For more on the types of aid available and how to apply for them, visit the Financial Aid web

STEP 2: TRANSCRIPTS

Contact your high school and any college you have attended and have them send an official copy of your transcripts or GED scores to: Parkland College, Admissions and Records, 2400 West Bradley Ave., Champaign, IL 61821.

STEP 3: WAIT FOR A LETTER OF ACCEPTANCE

You should receive a letter of acceptance to Parkland approximately two weeks after your transcripts are received. Call the Office of Admissions and Records at 217-351-2482 if you have any questions.

STEP 4: ASSESSMENT

Obtain evidence of academic readiness or take an assessment of your skill levels in reading, writing, and mathematics at Parkland before meeting with an advisor or counselor. Sign up for a FREE Test Preparation Workshop. Click to view the Assessment Center resources:

- Placement FAQs
- **Test Prep Resources**
- Test Taking Tips.

Call 217-351-2432 to schedule an appointment.

>> Note: If you had an IEP or 504 plan in high school, please contact the Office of Disability Services for possible accommodations prior to calling the Assessment Center.

STEP 5: ORIENTATION (SOAR)

New students with fewer than 15 college credit hours must complete an orientation session. Sessions are held on-campus every Tuesday and Thursday during registration periods. Registration is required. You may register one of three ways:

- Register online
- Call 217-353-2033.
- · Email us to schedule a session time.

More about Orientation (SOAR)
